In Ars Magica and Mage: The Ascension, **certámen** is a magical duel between mages. The nature of certámen allows the participants to use their magic to the best of their ability without causing real and permanent harm to themselves or each other.

The vampires of Clan Tremere can simulate certámen through a Thaumaturgical ritual.

Both the Virtual Adepts and the Sons of Ether call certámen by different names. For the Adepts, it is known as "*Flame Wars*," and for the Etherites, it is a "*War of Science*."
